

To whom it may concern;

All MSI Industrial Pipe Fitting Products, both manufactured and distributed are free from Persistent bioaccumulative toxins (PBT) as listed within the Toxic Substances Control Act (TSCA) Section 6h as determined on January 6th, 2021. MSI products do not contain any of the (5) substances of concern listed below:

- Pentachlorothiophenol (PCTP)
- Hexachlorobutadiene (HCBD)
- Decabromodiphenyl Ether (DecaBDE)
- 2,4,6-Tris(ter-butyl)phenol (2,4,6-TTBP)
- Phenol, isopropylated phosphate (3:1)

(PIP (3:1)) is a chemical substance that is used as a plasticizer, an “anti-wear” additive, flame retardant or an anti-compressibility additive in the hydraulic fluid, lubricating oils, lubricants and greases, various industrial coatings, adhesives, sealants and plastic articles.

These substances are not used in the manufacture of, or the raw material of any of the products we distribute and as such, MSI Products are fully compliant with TSCA section 6.

Regards,

MSI Quality Assurance
