

RoHS Certificate of Compliance

This is to certify that MSI's Black and Galvanized Malleable Iron Pipe Fittings, S40 & S80 Steel Pipe Nipples, Cast Bronze Fittings, Red Brass Nipples. Brass, Steel and Stainless Ball Valves comply with the requirements as set forth in the RoHS Standard for the following Materials:

0.1% by weight in homogeneous materials for lead;
0.1% by weight in homogeneous materials for mercury;
0.1% by weight in homogeneous materials for hexavalent chromium;
0.1% by weight in homogeneous materials for polybrominated biphenyls;
0.1% by weight in homogeneous materials for polybrominated diphenyl ethers;
0.01% by weight in homogeneous materials for cadmium.

There are no trace Elements of:

Actinolite - Alkanes, c10-13 - Amosite
Anthracene - Anthophyllite
Benzyl butyl phthalate
Bis(tributyltin)oxide
Cadmium 0.01% by weight
Chrysotile 12001-29-5
Chrysotile 132207-32-0
Cobalt dichloride
Crocidolite - Cyclododecane
DEHP - Diaminodiphenylmethane
Diarsenic pentaoxide - Diarsenic trioxide
Dibutyl phthalate - Dihydrate
Diphenylether - HBCDD
Lead hydrogen arsenate
Monomethyl-dichloro Ugilec 141
Monomethyl-dichloro-DBBT
Monomethyl-tetrachlorodiphenyl
Musk xylene - Pentabromo
Sodium dichromate
Tremolite
Triethyl arsenate
